

World Future Energy Summit

The 2nd World Energy Summit was held in the Abu-Dhabi National Exhibition Centre between the 19th – 21st January 2009; providing the opportunity to challenge ourselves on achieving a cleaner, more sustainable future. This was the world's largest conference and exhibition on renewable and future energy solutions, innovations, investments, policy and vision and was attended by many of the world's leading innovators, educators, scientists, venture capitalists and experts in the field of future energy – people who are champions and catalysts in creating sustainable solutions attended to make this a world class experience.

Big name guests included Tony Blair, IPCC Chairman Dr. Rajendra Pachauri and a host of government ministers and royals from around the world.

TRANSCO employees attending benefited from many areas of interest that included energy policy, investment and funding, green buildings, clean transport, solar, wind and biofuels. Giving most of them (if not all) a new outlook on the production, transmission and use of energy.

H. H. Sheikh Diab Bin Zayed Al Nahyan , Chairman of ADWEA,
visits ADWEA's booth at the summit.
